# Harsh Pardhi

Cloud Platform Engineer | Azure DevOps | MLOps & AI Infrastructure

+91-9529667349 harshpardhi499@gmail.com harsh-pardhi.vercel.app github.com/HP04Harsh

## Professional Summary

Cloud Platform Engineer with 2 years of experience at Hexaware Technologies across Azure cloud operations, Microsoft 365 and on-premises-to-cloud migration support, PowerShell automation, SharePoint, storage analytics, Power BI and Power Platform. Microsoft-certified in Azure administration and Azure MLOps, with hands-on project experience in Terraform, Docker, Kubernetes, CI/CD, Python, SQL, Azure Machine Learning, MLflow and Azure AI Foundry. Focused on reliable cloud infrastructure, deployment automation, observability and the platform engineering required to operate AI workloads.

## Technical Skills

**Cloud and AI Platforms:** Microsoft Azure, Azure Machine Learning, Azure AI Foundry, Azure OpenAI, Azure Kubernetes Service (AKS), Azure Storage, Azure Compute, Azure Monitor, Microsoft Entra ID
**Infrastructure and DevOps:** Terraform, Git, GitHub, Azure DevOps, GitHub Actions, Docker, Kubernetes, Helm, CI/CD, Azure CLI, PowerShell
**MLOps and AI Operations:** MLflow, model packaging, experiment tracking, model deployment workflows, model lifecycle concepts, Copilot Studio, LangChain
**Automation and Data:** Python, SQL, SharePoint, ShareGate, Power Apps, Power BI, Microsoft 365, Microsoft Excel, CSV/report automation
**Security and Observability:** Azure Policy, RBAC, Key Vault, Kyverno, Prometheus, Grafana, OpenTelemetry, Istio concepts, cloud governance

## Professional Experience

**Software Engineer** **July 2024 – Present**
*Hexaware Technologies Ltd.* *India*

- Performed Azure cloud administration activities covering resource operations, access-related tasks, troubleshooting and technical documentation in enterprise environments.
- Executed on-premises-to-cloud and Microsoft 365 migration activities using ShareGate and PowerShell, including migration preparation, validation and operational follow-up.
- Automated SharePoint and storage-analytics activities with PowerShell, converting repetitive manual steps into repeatable operational workflows.
- Developed storage-analytics reports and Power BI dashboards using SharePoint, Excel and consolidated CSV data to surface usage and operational trends.
- Implemented internal workflow automation and business-process reporting using Power Apps and Microsoft Power Platform.
- Applied Python and SQL for data preparation and report consolidation; applied Azure Machine Learning, Azure AI Foundry and Copilot tools to AI-assisted workflows and model lifecycle, deployment and monitoring concepts.
- Partnered with project teams on technical documentation, issue analysis, operational handover and troubleshooting across cloud and automation activities.

## Projects

**Secure Kubernetes Observability Platform** | *Terraform, AKS, Kubernetes, Helm, Kyverno, Prometheus, Grafana*

- Provisioned an AKS-based Kubernetes environment with Terraform and documented remote-state management using Azure Storage and Key Vault.
- Implemented Kyverno policies for workload and container-security checks and packaged platform components with Helm.
- Configured Prometheus, Grafana and OpenTelemetry components to practise metrics, dashboards and distributed-tracing workflows; documented Istio integration considerations.

**InfraGenie: Natural-Language Azure Provisioning Assistant** | *Azure, Terraform, Python, Azure OpenAI, LangChain*

- Built a proof-of-concept assistant that converts natural-language infrastructure requests into Terraform-oriented Azure provisioning workflows.
- Implemented Python orchestration, request validation and governance guardrails to reduce unsafe or incomplete provisioning requests.
- Documented the architecture, authentication considerations, limitations and security boundaries of the personal project.

## Certifications

**Microsoft Certified: Azure Administrator Associate (AZ-104)**
**Microsoft Certified: Machine Learning Operations Engineer Associate (AI-300)**

## Education

**Master of Computer Applications (MCA), Online** **Expected 2028**
*Mangalayatan University* *India*

**Bachelor of Computer Applications (BCA), CGPA: 8.90/10.0** **2023**
*Dr. Babasaheb Ambedkar Marathwada University* *India*
