# HARSH PARDHI

## Applied AI / GenAI Engineer

Agentic Systems · Enterprise RAG · Azure OpenAI · Copilot Studio

+91 95296 67349 | **harshpardhi477@gmail.com** | **linkedin.com/in/harsh-pardhi** | **github.com/HP04Harsh** | **harsh-pardhi.vercel.app**

## SUMMARY

Production GenAI engineer building agentic AI systems and enterprise RAG solutions on Azure. Hands-on with Azure OpenAI, LangGraph, MCP tool-calling, Python/FastAPI, and containerised deployment on AKS. Ship AI agents into live enterprise environments with a focus on retrieval quality, guardrails, least-privilege access, latency and cost — not just prototypes.

## TECHNICAL SKILLS

| | |
|---|---|
| **GenAI & Agentic AI** | Azure OpenAI, LangChain, LangGraph, MCP, RAG, Copilot Studio, FastAPI |
| **Cloud & AI Platform** | Azure, AKS, Azure AI, Key Vault, Entra ID, RBAC |
| **Engineering & DevOps** | Python, PowerShell, Docker, Kubernetes, Terraform, Azure DevOps |
| **Enterprise Automation** | Power Apps, Power Automate, Power BI, SharePoint, Microsoft Graph |

## EXPERIENCE

### Software Engineer — Jul 2024 – Present

*Hexaware Technologies Ltd.* — *Chennai, India*

- Own two production **Copilot Studio AI agents** (L1 support + PMO) grounded in SharePoint knowledge, with automated ticket creation and live migration dashboards — serving four merging tenants.
- Built a **Terraform landing zone** with remote state and locking as a client proof of concept, enabling repeatable, auditable infrastructure provisioning.
- Built **Transcend**: a Power App with an embedded Copilot Studio agent and Power BI dashboard, now the transformation team's primary project tracker across 20+ active projects.
- Delivered enterprise automation at scale: migrated OneDrive for **5,000+ users**, 132 Power Apps and 50+ Power Automate flows, and ran a StorageX Analytics engagement across 9 storage VMs — earning formal client appreciation.
- Partnered with security and compliance teams to apply **RBAC and least-privilege access reviews** across every migrated Microsoft 365 tenant before go-live sign-off.
- Authored **incident runbooks and escalation playbooks** for the L1 support agent, reducing repeat manual triage on common migration tickets.

## PROJECTS

### InfraGenie — AIOps Platform for Azure — infragenie-ai.vercel.app

*Python, FastAPI, React, TypeScript, Terraform*

**github.com/HP04Harsh/infragenie-aiops**

- AI-first AIOps platform: a swarm of 8 specialized agents (provisioning, observability, troubleshooting, cost, policy, reporting, ITSM, support) behind one natural-language entry point.
- Agents turn plain-English infrastructure requests into Terraform plans with cost estimates, validated against policy before every apply.
- Guardrails before apply: every plan passes a policy check; returns 409 honestly when no Azure credentials are configured, instead of faking success.
- 24x7 monitoring agent autonomously remediates failures and logs ServiceNow tickets with root-cause reports; model layer runs a fine-tuned Qwen model published on HuggingFace.

### Smart Search & Analyzer — Groq AI Assistant — smart-search-analyzer.vercel.app

*Python, Streamlit, Groq Llama3, PyMuPDF, OpenCV*

**github.com/HP04Harsh/Smart-Search-Analyzer**

- Multi-modal AI chat built on Groq Llama3-8B with automatic timestamp-based session management.
- Document intelligence: analyzes PDFs, DOCX, and images (PNG/JPG) using PyMuPDF and docx2txt, plus live webcam capture via streamlit-webrtc for real-time AI description.
- Chat history persists per session, letting users revisit earlier document Q&A without re-uploading files.

## CERTIFICATIONS

- **AZ-900 — Azure Fundamentals** — Mar 2025
- **AZ-104 — Azure Administrator Associate** — Oct 2025
- **Terraform Associate (004) — HashiCorp** — Scheduled
- **AI-103 — Azure AI Apps and Agents Developer Associate** — Scheduled

## EDUCATION

**Master of Computer Applications (MCA)** — Online, pursuing · *Mangalayatan University* — **2025 – 2028**

**Bachelor of Computer Applications (BCA)** — CGPA 8.90/10 · *Dr. Babasaheb Ambedkar Marathwada University* — **2020 – 2023**
